Improving Organizations Improving Lives

## STAT OF THE WEEK

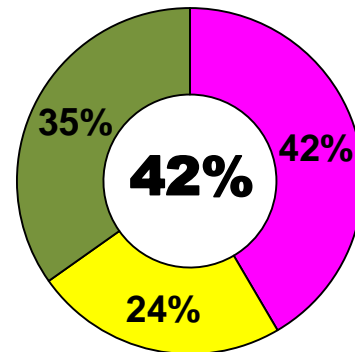

### Employee Voice in T&T: Supervisors vs Managers

**60%** of employees say their supervisor encourages employee voice, but only **42%** say their senior managers do the same.

My immediate supervisor encourages employees to voice their ideas, opinions and suggestions about the work of the department/work unit.

Senior management encourages employees to voice their ideas, opinions and suggestions for improving the company.

**Over a third of the employees in T&T say their senior managers don't encourage employee voice. How does your organization show employees that their views, opinions, ideas and suggestions are valued?**
