# STAT OF THE WEEK

## The Company as a Great Place to Work

Only about half (51%) of employees in T&T would recommend their organization as a great place to work, while almost a quarter (23%) would not recommend it, and a little more than a quarter (26%) refuse to say.

This question is sometimes used to calculate the employee net promoter score or eNPS for an organization. The eNPS is calculated by subtracting the percentage of employees *not* willing to recommend their organization from the percentage of employees willing to recommend their organization. In this case, the average eNPS for organizations in T&T is 28%. What is your organization's eNPS?
